Bengaluru, India

Education

Manipal Institute of Technology, Bengaluru, Karnataka, India
Bachelor of Technology (B.Tech) in Computer Science and Engineering (Data Science)
Expected Graduation: May 2028
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Cybersecurity (Self-Study/Certifications), Database Management Systems, Discrete Mathematics.

Skills

Category	Skills
Security & Research	Threat Modeling, Incident Response, Vulnerability Analysis, Security Assessments, NIST Framework (CSF, RMF), ISO 27001, GRC (Governance, Risk, and Compliance), Malware Analysis (Basic), SIEM Tools.
Programming & Data	Python (Core strength for automation/data), JavaScript, C++, SQL, Pandas, NumPy, Scikit-learn, Machine Learning (Random Forest for threat detection).
Tools & Platforms	Git, GitHub, VS Code, Linux, React.js (for full-stack application development/automation).
Core CS Concepts	Data Structures, Algorithms, Object-Oriented Programming (OOP), Software Design, Database Design, Version Control.

Projects & Experience

Cybersecurity Intern - Mastek Ltd., Mumbai | July 2025 – August 2025

- Directly contributed to the organizational security framework by applying **governance principles** to **hands-on security assessments**, identifying security defects, and analyzing risks.
- Developed and managed a comprehensive audit sheet for key **cybersecurity frameworks**, including **NIST CSF**, **NIST AI Risk Management Framework (RMF)**, and **ISO 27001/27002**, streamlining compliance analysis.
- Led a capstone project involving a comprehensive **security assessment of a target website**, utilizing a custom checklist to identify and report potential security flaws and **deficiencies in security guidance**.
- Currently enhancing an automated auditing solution as part of GRC work, contributing code to the **technical implementation and automation of solutions** to address security issues.

Grand Finalist, IIT Kanpur Cybersecurity Hackathon

- Selected among the top teams nationally for performance in HACK IITK 2024.
- Developed a **social media bot detection system** utilizing a **Random Forest algorithm** and other **machine learning techniques**, demonstrating foundational work in **advanced threat detection capabilities**.
- Handled full-stack development of the application, from data processing to user interface, for real-time demonstration.

Chair - IEEE Computational Intelligence Society (CIS), MIT Bengaluru | Present

- Lead the student chapter in planning and executing technical workshops and projects related to **computational intelligence and AI**, fostering a community passionate about emerging technologies relevant to advanced threat analysis.

Certifications

Google Cybersecurity Professional Certificate – Coursera (2025)

- Trained in **SIEM tools**, **threat modeling**, **incident response**, and the **NIST framework**, directly relevant to security research and threat analysis.⁴

JavaScript & React Certification – Scrimba (2024)

- Completed comprehensive coursework enhancing software design and implementation skills applicable to automation and technical solutions.
-

Leadership & Activities

IEEE Computational Intelligence Society (CIS), MIT Bengaluru Chapter

- **Chair:** Manage committee and lead initiatives in AI/ML, demonstrating **leadership, communication**, and the ability to integrate work across disciplines.

Robotics Club, MIT Bengaluru

- **Robotics Team Lead:** Led multi-member teams in robotics projects, showcasing **teamwork and problem-solving** in technical environments.
